Healthcare Professionals Prepare Class Action Against Regulatory Mismanagement and Harassment

Australia, 20 October 2025 — Jewish healthcare professionals in Australia, along with their colleagues who have supported them and Israel, have endured menacing and vexatious complaints. These have been grossly mismanaged by **AHPRA**, the **HCCC**, and the **National Health Boards and Councils**.

Despite exhaustive efforts to engage constructively with Health Ministers, regulators, and medical colleges, focusing on dialogue and practical solutions, our professionals remain targets of unscrupulous campaigns.

Regrettably, our concerns have been dismissed with inadequate responses.

A Call for Accountability

We can no longer tolerate this relentless bullying or the complicity of **AHPRA**, **HCCC**, and the **National Health Boards and Councils**.

In preparation for a **class action lawsuit** against these entities, the **Australian Zionist Healthcare Alliance (AZHA)** urges all affected health professionals who have faced vexatious complaints of an antisemitic or antizionist nature to submit their details via our website.

You will then receive an invitation to a seminar outlining the next steps for joining the litigation.

How to Participate

Submit your details at

 www.azha.org.au

Privacy Assurance

Your submitted details will be accessible only to the **AZHA Executive Board** and will **not** be shared without your explicit written consent.

About AZHA

The **Australian Zionist Healthcare Alliance (AZHA)** is a not-for-profit organisation advocating for Zionist healthcare professionals, students, and patients. AZHA provides confidential support, education, and representation for those facing bias, discrimination, and antisemitism/antizionism in healthcare.
